**BESLAGEN MUREN**

**Expansie in metaal**  
nemen

**Nemen van "MOLLY"**

Een een beetje boor gebruiken die verenigbaar in de omvang met hetgebruikte materiaal is en het soort muur

## **Préconisations d'utilisation pour plateau MARBRE**

Le marbre est un matériau naturellement poreux qui nécessite une protection.

Il doit avoir été préalablement protégé par une couche de cire siliconée pour prévenir du risque de pénétration de liquides.

A noter que les liquides gras pénètrent plus rapidement dans le matériau que les liquides à base d'eau.

C'est aussi un matériau sensible à la chaleur dont le risque est le fendillement.

### **IMPORTANT**

Tout liquide renversé doit être immédiatement essuyé avec un chiffon blanc qui aura été au préalable trempé dans de l'eau tiède et essoré.

Utiliser des dessous de verres et repose-plats pour protéger la surface de la table de la chaleur.

Ne pas utiliser de produits acides ou alcalins qui peuvent endommager la surface de la table.

### **Conseils d'entretien :**

Pour l'entretien régulier, utiliser simplement un chiffon doux et humide.

Enlevez la poussière et la saleté avec un produit ménager neutre

Ne pas utiliser de nettoyeurs à base de vinaigre
